CoBank’s Credit Interns get real-life exposure to the daily duties of a credit analyst and working as a part of the lending team. The intern will conduct underwriting and financial reviews for CoBank’s customers. A typical credit report prepared by a Credit Intern will include an in-depth analysis of a customer’s operation, including; financial position, risk profile and industry make up. In addition, this intern will participate in various collaborative tasks to address customer needs. They will accomplish this by working together with experienced credit staff, relationship managers and other supporting staff. CoBank interns spend the summer as a valued member of their respective teams, learning business skills and assisting with a variety of projects that have an impact on the bank’s operations. An additional focus of the summer intern will be to complete a capstone project that will seek to add value to the team they are supporting. This is a competitively paid position which also includes a housing stipend, for both undergraduate and graduate students.

This 2023 summer intern position is located in our Sacramento office.

You will also attend a 2-day Summer Intern Event – Denver, Colorado in June!

About CoBank

CoBank stands strong as a $180 billion enterprise dedicated to the financial needs of rural America. As a national cooperative bank and a proud member of the Farm Credit System it is our mission to serve as a relevant and dependable provider of credit and other value-added financial services. From our headquarters in Denver, Colorado and our regional banking centers across the US, CoBank provides loans, leases, export financing and other financial services to agribusinesses and rural power, water and communications providers in all 50 states.

CoBank will not sponsor a work visa (e.g. H1B, etc.) to fill this position. CoBank is an Equal Opportunity Employer.
